POVERTY IS NO BAR

DR. ROBBINS AN ADVOCATE OF LOVE IN A COTTAGE.

CONFUTES $2000 THEORY

Has Studied Divorce Statistics and Finds Only 5.3 Per Cent Give Non-Support as Cause.

The following extract from the sermon of Rev. Grant A. Robbins of St. Louis, formerly pastor of the First M. E. church in Maryville, is taken from Monday's St. Louis Globe-Democrat:

"If we set up poverty as a barrier to marriage, it will not be long before we will not have much population left," said Rev. Dr. Grant A. Robbins, pastor of Union Methodist Episcopal church, Garrison and Lucas avenues, in a sermon last night on "Poverty and Marriage."

"The rich and affluent of the country are not taking the responsibility of home and family," he continued. "They are too busy going to the warmer climes in the winter and cooler spots in the summer. We depend for our population as well as civilization on the humbler people of the world.

"The question those scientists who contemplate poverty as a marriage barrier should consider is how we may best help individual men who are striving hard for their small living. One way would be to see that no man charges an exorbitant rent to those just eking out their existence.

Dr. Robbins quoted an eastern professor's proposal that no man should marry on a salary under $2,000 a year. He said such a proposition is out of the question.

"Society has the right to determine that people of feeble mind, criminals, insane or diseased persons ought not to marry, but society has no right to make any determination when the question of wealth or poverty enters," he says. "Poverty in itself is no key to a man's success. We can not measure a man's success by the size of his salary. There are plenty of rich men who are miserable failures. Success is not to be measured by social position. Some of the noblest characters of the earth were financial failures.

"Marriage is the most sacred institution in all the world and makes the family greater than the church. No one word has as much signficance and recalls the tender memories of home. The great poets never have attempted to associate with home and love the idea of position or wealth. They have taken them in their sincerest meaning. If the barrier of poverty had been erected before marriage, we would have shut out many leaders of society.

"After all, I don't know but what poverty is a good thing for some folks. It has made men. Too many times the sons of wealthy parents stand on the records of their fathers and waste their money and their lives. Poverty makes men of the children, who feel its sting, and the accompanying slights; it gives them determination and the will to earn property of their own."

Any belief that the modern divorce evil in a large measure is due to the marriage of poor people was attacked by Dr. Robbins. He said his study of divorce statistics for several years has shown only 5.3 per cent of divorces are due to non-support. He said many people who marry for wealth and social position fail to find happiness. Statistics of other causes of divorce which he quoted were: Twenty-eight per cent, lack of chastity; 49 per cent, desertion and 10 per cent, cruelty.

TO BUILD A ROAD IN A DAY.

500 to 1,000 Men Will Work on a 25-Mile Section of Cross-State Highway in Boone County.

Of interest to the good roads advoadvocates will be the following dispatch from Columbia, Mo., whose commercial club has probably been the means of securing more good things for the town than any club in the state:

Between five hundred and one thousand men will get out of bed at 4 o'clock the morning of July 27 in Boone county, and an hour later will begin a labor of twelve hours in grading and repairing the cross-state highway from the east to west county line. It is to be "Good Roads Day" in Boone county, with the aim of putting the 25-mile stretch of the cross-state highway in better condition than any other part of the route.

In the last few days practically every farmer along the route has been visited by representatives of the Columbia Commercial club and urged to take part in the work. They have not met with a refusal. The farmers have promised to report at 5 o'clock in the morning with teams, wagons, scrapers and other tools. A captain will be appointed for every mile of road on the highway in the county and the work will continue twelve hours.

"The farmers will not be the only workers. Business men from Columbia and the other small towns in the county will put on their overalls and work alongside the farmers. The members of the Columbia Automobile club will use their machines to transport the workers to any part of the highway where they are needed. Luncheon will be served to the workers by the women along the route.

The wheat harvest will be out of the way by that time and the consent of the farmers to help put the roads in shape has come rapidly. The county court has promised to help and the county engineer will help direct the men. Many new culverts will be installed and many small bridges repaired.

ART OF STORING UP ENERGY.

Plan by Which Busy Man Was Able to Carry Work.

It is easier to work one's self into fatigue than it is to work out of it.

And yet one can learn how to get over that tired feeling. It is a matter of system.

With most people thought never turns scientifically toward rest during the day. It often turns that way as a wish, not as a definite plan to be followed.

A certain business man used to take a summer vacation. Then affairs so crowded upon him that he had to work fifty-two weeks a year. Everybody thought it would eventually kill him. But it didn't. It cured him.

"I learned," he said, "to enjoy a spare hour now and then— to enjoy it fully, to let go completely. I found this habit so well worth cultivating that I stopped carrying my business to lunch, to the theater and to bed with me. I just gave way in those occasional free hours, and they made a new man of me. I am healthier than I have ever been before, and I like my work better."

Now this plan is the plan of storing up energy. Stop now and then for one minute and relax the body completely. Breathe as deeply as you can. Close the eyes while doing it and then let go with the conviction that all your fatigue and annoyances are slipping away.

This last sounds like cure, does it not? It is mind cure. Try it. Your mind is tired, and when you have removed fatigue then you are fit once more. That is real mind cure.

Any one can find frequently during the day a minute or two in which to come out of the working self into the upbuilding self.

While it takes but a minute, it builds for a good many minutes.—Philadelphia Telegraph.

TO HAVE AUTO TRIP

CHAUTAUQUA TO BE ADVERTISED IN MANNER OF WHITE WAY.

MET WITH DIRECTORS

Prest. Richardson and Prof. Landon Arranged for Entertainment of Normal Presidents June 30.

President Ira Richardson and Prof. P. O. Landon met with the board of directors of the Commercial club at their regular Monday meeting and discussed questions pertaining to the Normal and Chautauqua.

The presidents of the other normal schools of the state will meet in Maryville Monday, June 30. The meeting will be an informal one for the discussion of normal school topics. Tuesday, July 1, the presidents and the faculty of the school here will be the guests of the Commercial club at dinner, according to the plans made at the meeting yesterday.

The directors of the club appointed J. H. Sewell chairman of a committee to arrange an auto tour of the county advertising the Chautauqua to be held here August 9 to 17. The club is working with the Chautauqua management to make this year's session the best ever seen in Maryville. An effort is being made to have the business houses close in the afternoon of at least one day.

The program, which was outlined in The Democrat-Forum a few days ago, provides the best of talent in all lines. Among this talent there are several big men who will be drawing cards, and any one of the days on which they appear would be a good day to close the business houses. It would give the business men a chance to hear, not only the things they want to hear, but the best things on the program.

The program books will not be ready for some time, but the detailed program will be given in this paper in a few days.

DIED IN MONTANA.

Miss May Leech Fatally Injured in Auto Accident at Ft. Benton, Mont.

Miss May Leech of Ft. Benton, Mont., daughter of Mr. and Mrs. Mrs. S. C. Leech of Pickering, died at the Ft. Benton Sanitarium Friday, June 20, of injuries she received in an auto accident May 25. Burial took place at Ft. Benton.

An ascent over a high hill was being made, which proved too much for the car, and it began to back suddenly, turning over when near the bottom, pinning Miss Leech under it. Her injuries were regarded fatal from the first.

Miss Leech went to Montana two years ago and entered a section of government land, which she was to prove up on the 10th day of July next. She was coming to visit her parents at Pickering this month, and her coming was looked forward to with much happiness by her parents, as it would be her first visit home since she went to Montana.

She is survived by her parents, four sisters and two brothers. The sisters are Mrs. J. E. Kelley of Ft. Benton, Mont., with whom she had been living; Mrs. Grover Dinsmore of Ottawa, Kan.; Mrs. Denver Loch of Pickering, and Miss Amy Leech, at home; Leonard and Corney Leech at home, the latter having been with his sister several days before she died.

LIGHTNING DAMAGES HOME.

Residence of Wm. Corcoran at Conception Struck by Lightning During Storm Monday Night.

Lightning struck the home of William Corcoran of Conception about 10 o'clock Monday night. None of the family, who were sitting on the front porch at the time, were hurt, but the house was seriously damaged.

The lightning struck the flue at the northeast corner of the house, ran along the galvanized iron gutter and porch roof to the southwest corner, where it struck the telephone wire and entered the interior. The plastering of the room in which the telephone was knocked off the walls and ceiling. The rugs and curtains were all ruined by soot, which was scattered all over the house. In places the soot was two inches thick on the rugs.

The damage to the house, which is one of the finest in Conception, and its furnishings, has not yet been estimated by Mr. Corcoran.

Mrs. Harold VanSteenbergh is visiting her mother, Mrs. Hattie Strawn, at Omaha.

PUT MUSIC IN SCHOOLS.

Music Teachers' Association Will Try to Have Law Passed Making the Study Compulsory.

P. O. Landon returned Saturday from Joplin, where he has been attending the Missouri State Music Teachers' association convention. He says that the convention was a great success and that the people of Joplin entertained them royally.

J. T. Quarles of St. Louis and W. S. Morse of St. Joseph were re-elected president and vice president.

Mr. Landon moved that a committee be appointed to make an active campaign before the next legislature to have the study of music made compulsory in the public schools. The motion was carried, but the committee has not yet been appointed.

"The purpose of this movement is not to drive any other study out of the curriculum, but to give music its proper place," said Mr. Landon. "In this way a much larger number of the children could receive a musical education, and those who could not afford private instruction would get it in the schools. Iowa and Kansas already have this study in their schools, and Missouri should have it. It would mean for a town the size of Maryville that a supervisor of music would have to be added to the faculty of the city schools. This supervisor would have charge of the music in all the grades."

TOOK ENGINE OFF.

Horses Must Furnish Motive Power for Working Road on Account of Bad Condition of Bridges.

The township board had to stop work Monday on the road leading west from Maryville when they reached White Cloud. Two bridges there were in such bad condition that the traction engine could not be taken over them. The road workers then started to go around by another road, but three more bad bridges prevented them from working there. Teams wil have to be used on these roads until the bridges are fixed or new ones put in.

Juvenile Law in Effect.

The new juvenile delinquent law as passed by the last legislature in house bill 499 went into effect Monday, according to Probate Judge Conn. This law is an act conferring on the probate court in counties of less than 50,000 the care of children who are delinquent, neglected or otherwise subject to discipline. This applies to children under the age of seventeen, who are neglected by their parents or guardians, or who run the streets, are truants from school and otherwise unruly.

ENTER YOUR BABY

MOTHERS' CIRCLE TO HAVE CHARGE OF FEATURE.

TO PUT ON FANCY DRESS

Elaborate Decorations Contemplated for White Way Posts and Business Houses in Downtown Section.

Maryville will have a new dress by the Fourth of July, a dress such as she never had before; and, although it is not exactly to be a Bulgarian pattern, it will be a riot of color from seam to seam, collar to train, or whatever the ends of a dress are called. In other words, the downtown streets and business houses will be decorated for the celebration far more elaborately than they have ever been decorated on any other occasion.

Beside the decorations which the merchants are having put on their buildings, every lamp post of the white way is to be decorated. W. F. Starin, who is doing this work, asked the Fourth of July committee yesterday to have the posts decorated. The committee decided that it could not afford to do this, but asked the Woodmen of the World and the Owls lodges if they would take the matter up. Each lodge agreed to bear half of the expense, and the work will be started at once. The decorations which Mr. Starin puts up are waterproof, and no amount of rain can spoil them.

At its meeting Monday the committee also decided to have a baby show on the Fourth. Twenty-five dollars in prizes will be given. The Mothers' Circle has been asked to take charge of the show, select the judges and award the prizes.

Mrs. James Ray will be chairman of the committee from the Mothers' Circle in charge of the baby show.

An active advertising campaign is now in progress, and news of the celebration is being spread throughout this section of the country. Two autos will start Wednesday morning on an advertising trip. One will cover the eastern half of the county and the other the western half, spreading handbills and posters wherever they go.

TOES ARE BECOMING HEELS.

A Surgeon Comments on an Evil of Women's Shoes.

A modishly dressed woman walking backward need cause no surprise a few years hence. She may simply have lived so closely in style that she has developed the "new heel" situated where her toes ought to be.

The discovery of the new heel is that of Dr. Max Strunsky of New York, writes a Baltimore Sun correspondent. He blames it entirely on high-heeled shoes and finds women would rather continue to suffer with it than to use common sense shoes, which make the foot look large.

"The anterior arches become prominent and bulge and are covered with callosities," he reports after his examinations of the latest freak. "Not only do the arches perform, under pressure of the additonal burden, the function of heels, but they acquire all the characteristics and every semblance of heels."

Dr. Strunsky says women with foot complaint are found almost invariably to have trouble with the anterior arch. He finds the shoes throw the weight of the body exactly where weight was never intended to go.

"The heel is the strongest part of the foot and is constituted to carry the main bodily weight," he writes. "The high-heeled shoes which women wear, however, practically compel them to walk on the heads of their metatarsals. Thus every time they take a step they jam the metatarsal heads on the ground.

"High-heeled shoes compel the anterior arches to assume the function of weight carrying structures or heels. Metatarsal walking increases the size and strength of the anterior arches and changes their flexibility and elasticity, essential to a normal gait, to rigidity."

"Right Makes Might."

(By James A. Edgerton.)

There is but one royal road to success. That is the street called Straight.

The man who follows any other road is headed toward trouble, and sooner or later will get what is coming to him.

A straight line is the shortest distance between two given points. A straight man is the quickest to arrive at the point toward which he aims.

This, of course, is on the theory that the straight man moves. All the ethical standards in the world will hardly make a sluggard arrive.

Let no young man make the mistake of thinking that he can hoodwink and outwit the universal law of things. The moral law is a most important part of this universal law.

Let no man, young or old, imagine that he can long delude even his fellow men. Day by day the intelligence of the race increases, day by day there is a growing insistence that everyone play fair.

The man who said that "might makes right" was a literary crook. Lincoln stated the real law when he reversed the formula and made it read, "Right makes might."

He proved his words by his works. It was because he was right that placed Abraham Lincoln among the gigantic figures of modern times.

The consciousness of being right gives a man nerve, backbone and confidence in himself. He knows he has solid backing.

The business of the world is being done more and more on the basis of confidence. The moral defective is impossible in this new field of commerce.

The merchant who has an established reputation for honesty has a capital that cannot be deposited in banks. The late J. P. Morgan testified that his loans were made to men of character rather than to those with collateral alone.

Collateral may be stolen or may depreciate in value, but character is thief-proof and is not subject to bull and bear raids.

The temple of success is situated on the street called Straight.

Has Pleasant Remembrance.

Miss Mary Shaeffer, housekeeper for Rev. Fr. Anselm, received a card a day or two since from him, which was written on his birthday anniversary, May 25. He was writing at his mother's home in Klein Wangen, Switzerland, and was at the time telling his mother of the "linen shower" the young ladies of St. Mary's church in Maryville had given him just a year ago that day. Fr. Anselm had been much interested in the little affairs that had been given several brides of St. Mary's church about that time, and had asked the young ladies what they did at those "showers" and what they were for. And that was how it happened that the pastor of St. Mary's was treated so handsomely on his birthday. He was given fine tablecloths, napkins and towels, handkerchiefs, sheets and pillow cases, hand embroideries, hemstitched and monogramed with as much care as though they were to be for a bride, all just to "show him" what a linen shower was, and the young ladies did not enjoy the unusual but very appropriate occasion a bit more than did their pastor.

Williams-Arnold Wedding.

Sunday afternoon, June 22, 1913, a large number of relatives and friends gathered at the home of Mr. and Mrs. S. H. Williams, one and one-half miles west of Burlington Junction, to witness the marriage of their youngest daughter, Lula M., to Delta H. Arnold of Redding, Ia. Just before the ceremony Miss Lydia Bollinger sang "Because, Dear Heart, 'Tis You I Love." Promptly at 3 o'clock the wedding march from "Lohengrin" was played by Miss Bollinger as the bridal couple descended the stairway to the parlor, where they were united in marriage by Rev. L. C. Sappenfield. During the ceremony strains of "Happy Days" were played. After the ceremony the bride's mother and sisters served a dainty two-course luncheon. Mr. and Mrs. Arnold will make their home in Redding, Ia., where Mr. Arnold is agent and telegraph operator for the Burlington railway. The wedding guests were Mr. and Mrs. S. H. Williams, Mr. and Mrs. Charles Nicholas and Effie and Homer Nicholas, Mrs. Kinanman and Charles Kinanman of Atchison, Kan.; Mrs. Phrana Harris, Mr. and Mrs. I. T. There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

MEXICAN REBELS TAKE DURANGO

City Surrenders to Insurgents After Long Siege.

OJEDA IS IN DIRE STRAITS.

Federal Army in Sonora Surrounded by State Troops and Cut Off From Base of Supplies—Battle Which Began Last Week Is Still On.

Mexico City, June 24.—The capture of Durango is reported unofficially here. The city has been under siege for several weeks.

Durango, captured by the rebels, is the center of a district which has been the scene of the destruction of a great amount of property. Much of the damage in the small towns, ranches and mines has been to American property.

The railroad service has been interrupted for some time and the rebels have been gradually approaching the city, which is the capital of the state of the same name. The fate of the garrison is unknown.

Reports that General Ojeda, the federal commander in Sonora, had surrendered after a four days' battle at Ortiz were denied by the constitutional junta in Douglas. Official messages from Hermosillo said the battle was resumed. Junta members asserted, however, that Ojeda was surrounded and cut off from his base of supplies.

JUDGMENT FOR OVER MILLION

Final Order Is Issued in Silver King Mining Suit.

Salt Lake, June 24.—A judgment ordering the payment of $758,953 damages with interest and costs, making a total of over $1,000,000, by the Silver King Coalition company to the Silver King Consolidated company was made by the United States district court here. The judgment followed the refusal of the United States supreme court to review the case.

Former Senator Thomas Kearns is the principal owner of the defendant company, which operates mining property adjoining that of the plaintiff at Park City, Utah. The litigation arose over the charge that the Silver King Coalition company had defrauded the Silver King Consolidated company while the two were working under a joint agreement to prevent an apex dispute.

RENEW RIOTS AT BARCELONA

Several Persons Shot in Collision With Police After Anti-War Meeting.

Cerbere, June 24.—Advices from Barcelona say the renewal of fighting in Morocco, which resulted in violent rioting at Barcelona in 1909, again is arousing the socialistic and anarchistic elements, and the situation is beginning to be disquieting. A stormy anti-war meeting at Barcelona was followed by a collision between police and the agitators. Firearms were used on both sides and several persons were shot. There were several other violent clashes, the police on two occasions firing at the mob.

The authorities, alive to the dangerous possibilities of the situation, have confined the troops to barracks and taken every precaution.

Wilson Smashes Another Tradition.

Washington, June 24.—President Wilson smashed another White House tradition. Bareheaded Mr. Wilson walked out the White House drive almost to the gate to say good-bye to A. Popham Lobb, colonial secretary for Bermuda, one of his callers. Earlier Mr. Lobb, who first met the president in Bermuda, had been a guest of the Wilson family at the capitol and at luncheon. When Mr. Lobb departed his automobile had not arrived and the president walked out through the grounds chatting with him until they met the motor car coming from Pennsylvania avenue.

Boy Tries to Shoot Up Court.

Washington, June 24.—Ray M. Stewart, eighteen years old, tried to shoot up the criminal court here when Justice Stafford refused to release him on probation, after conviction for attempted highway robbery. Before officers could overpower him, Stewart whipped out a pistol and put three bullets perilously near Justice Stafford and Assistant United States Attorneys Given and Hawken. He was jailed to answer a more serious charge.

Grasshoppers Do Damage in Oklahoma

Guthrie, Okla., June 24.—Grasshoppers are doing such damage in central Oklahoma that a delegation from Lincoln county went to Oklahoma City to petition the state board of agriculture to aid them in stopping the invasion of the insects in Deep Fork valley. In the vicinity of Warwick and Wellson the cotton crop has been destroyed and the grasshoppers are attacking the corn and alfalfa. Damage is reported from other localities.

Beef Expert May Be Sent to Argentina

Washington, June 24.—Acting on representations made by Representative Kinkead of New Jersey, the department of agriculture is considering the dispatch of a department expert to the Argentine republic to investigate the beef situation there. If the inquiry is made, special attention will be given to the methods of slaughter of the animals as used by the Argentine packers.

M'REYNOLDS TO MAKE REPORT

Will Give Full Particulars to President in McNab Case.

ASKS REMOVAL OF HIS CHIEF.

Special Agent of Department of Justice at San Francisco Telegraphs Wilson, Demanding Head of Attorney General.

Washington, June 24.—Attorney General McReynolds will make a full report to President Wilson, at the president's request, on the causes that moved him to direct postponements of the Diggs-Caminetti white slave cases and the trials of two directors of the Western Fuel company, the basis of the resignation of United States Attorney John L. McNab of San Francisco and his sensational charges against the head of the department of justice.

One of the day's most remarkable developments in the unusual episode was the receipt by the president of a telegram from Clayton Herrington, special agent of the department of justice, in charge of the federal bureau of investigation at San Francisco, demanding the removal from office of Attorney General McReynolds, Herrington's official superior. Officials declared that the question of summary action in Herrington's case probably would be taken up by the attorney general.

Applies for Vacancy.

The department of justice was in ignorance of the protest until its publication in the papers. It then was called to the attention of the attorney general. Early in the day, before Herrington's action became known at the department, officials were somewhat mystified and later amused by the receipt of a telegram from another special agent applying for the "vacancy" at San Francisco.

While no action has yet been taken on McNab's resignation, White House officials let it be known that the president was looking for a successor. They stated that the character of the new district attorney would soon show whether there could be any manipulation of the cases of the department of justice through political influences, as charged by Mr. McNab.

Ask for Records.

The president said his first intimation of the situation was gleaned from the newspapers and declared he would wait for the attorney general's report before determining his course. The episode found an echo in congress, where Representatives Kahn, Republican, of California and Hinebaugh, Progressive, of Illinois introduced in the house a resolution calling for official papers in the case and one for an investigation by the judiciary committee. Representative Mann issued a statement declaring that President Wilson should supplant Immigration Commissioner Caminetti on the ground that he had "used both his political and official influence to prevent his son from being brought to a speedy trial."

SUFFRAGE RULING DUE

Attorney General to Give Governor Dunne His Opinion on Measure.

Springfield, Ill., June 24.—Governor Dunne will receive the woman's suffrage bill from Attorney General Lucey probably late this afternoon. The governor has until June 29 to act on the bill.

Pressure has been redoubled in the effort to cause Governor Dunne to veto the bill, and there is no indication of what will be the tenor of the attorney general's opinion, nor is there any word from the governor as to what he will do in the last instance.

Telegrams and letters poured in on the legislative office, representing all degrees of opinion, and it is understood that no governor has been confronted with so close a proposition on a bill awaiting action as is the case with Governor Dunne and the suffrage bill.

TOY PISTOL DESTROYS EVE

South Bend Boy Is Victim of Premature Fourth of July Casualty.

South Bend, Ind., June 24.—A toy pistol purchased by Joseph Pock, aged nine years, with the intention of celebrating the Fourth of July, was accidentally discharged, the load destroying the sight of Sylvester Kominsky's right eye. This is the second premature Fourth of July accident within the last few days.

Dakotan's Nomination Held Up.

Washington, June 24.—Friends of James Coffey of South Dakota, whose nomination as internal revenue collector for the two Dakotas was sent in by the president last April, were disappointed that it was not confirmed. The nomination has been in the hands of the senate finance committee since April 24. Confirmation was delayed because many protests were received by the senators from the two states against confirmation.

SUGAR FIGHT IS ON IN DEMCCRATIC CAUCUS

Decks Cleared for First and Most Determined Party Struggle.

Washington, June 24.—Democratic senators opposed to free sugar enlivened the senatorial caucus, beginning their final effort to change the schedule before the tariff bill reaches the senate for general debate. Western and Louisiana senators were primed to make a titanic fight against the provision, approved and urged by President Wilson, which provides that sugar shall be free of duty in 1916. Senators Shafroth of Colorado and Walsh of Montana took up the contest when the decks were cleared for the first and most determined internecine party tariff struggle.

This will be the acid test for free sugar. To the decision of the caucus the Democratic senators will be pledged and the prospect is that only Senators Thornton and Ransdell of Louisiana will be released from the binding resolution that is to be adopted.

The Democratic congressional committee elected Representative Doremus of Michigan chairman.

ARTHUR PELKEY IS FOUND NOT GUILTY

Pugilist Acquitted for Death of Luther McCarty.

Calgary, Alberta, June 24.—Arthur Pelkey was found not guilty of manslaughter in connection with the death of Luther McCarty, in the prize ring here, May 24.

The jury was out forty-five minutes and the verdict was to the effect that the contest was a prize fight, but that Pelkey was not guilty of manslaughter, inasmuch as the blow he struck was not intended to cause fatal results.

A big demonstration followed the announcement of the verdict and as Pelkey stepped from the prisoner's box he was warmly congratulated.

A rider added to the verdict said that the contest was a prize fight and asked that the Alberta government immediately take steps to stop such contests.

Jack Johnson Is Granted Appeal.

HOW ONE WOMAN WON

Her Health and Strength Back Again by The Use of Cardui.

Tampa, Fla.—In a letter from this city, Mrs. E. C. Corum writes: "I was all weakened and worn out with womanly troubles. My husband brought me some Cardui as a tonic, and, from the first day, it seemed to help.

I had almost lost my reason, but, thanks to Cardui, I did not. Soon, I felt and looked like a new woman. I think the remedy is wonderful. I recommend it to my friends, for I have received great benefit from it."

Cardui acts specifically on the weakened womanly organs, strengthening the muscles and nerves, and building them up to health.

It helps to refresh the worn-out nervous system and relieves the effects of overwork, both mental and physical.

Fifty years' successful use fully prove the merit of this purely vegetable, tonic remedy for women.

In every community, there live some who have been benefited by Cardui.

The beneficial effects of this time tested woman's remedy, soon show themselves in many different ways.

Try it.

PRESBYTERIANS ON A PICNIC.

Ball Game, Track Meet and Feast Among the Good Things Enjoyed by Church Folks.

A large number of the members of the Presbyterian church attended the annual picnic Tuesday on the Watson farm, west of town. The town people were taken to the farm on three large hayracks and in automobiles, which left the church at 10 o'clock in the morning.

When the Watson home was reached the men hurriedly put together a number of long tables, and then stood by impatiently and with hungry looks while the women loaded the tables with goodies from countless baskets.

In the afternoon a ball game was played between the married and single men, and the girls staged a track meet.

Mr. and Mrs. Perry Wright and Mrs. H. D. Lieghty of St. Joseph were in Maryville today to attend the funeral of Benjamin Wright.

Still Willing to Be Imposed Upon.

He had youth and much faith and inexperience, but his good father took him into his office to initiate him into the mysteries of business.

The second day he was at work a man came in asking for financial aid, with a pathetic story about a sick wife at home and six helplessly small children without a crust in the house.

The boy listened earnestly and then went into his dad's office to intercede for the unfortunate man. He told the sad story seriously. The father leaned forward and peered into the outer office at the vagrant.

"My son, credulity is one of those good things that die young—and it is such impostors as that man who make it so," he said impatiently. "Why, when that man was here last week he had eight children, according to his story."

"But, father, don't you see," replied the son tragically. "The other two probably died of starvation."

Renewing Mahogany.

Many pieces of fine furniture now stored in garrets would be in use if cleaned and made presentable. This may be done by removing the varnish with a sharp chisel an inch or more wide, lapping it on a fourth of an inch each time, and scraping down the wood. Uneven places should be softened with wood alcohol and scraped with a putty knife. Finish with a cloth wet in alcohol Smooth the surface with sandpaper and finish with coach or waterproof varnish. Where varnish has turned white wet with alcohol without rubbing.

Enough to Make Him Sick.

He came creeping in at the usual hour when a man finds it convenient to enter his house with as little commotion as possible. He replied, in response to the usual wifely query put to the gentlemen who arrive home at that hour of the night, that he had been sitting up with a sick friend.

"A sick friend, indeed! And what ailed him?"

"W-why, he lost twenty dollars."—Stray Stories.

Tea Reveals Oil Field.

The discoverer of oil in Papua, British New Guinea, was the result of a native boy being whipped for placing kerosene in a miner's tea. The youth declared his innocence and led the miner to the well from which the water had been taken.

It was found that the surface of the water was completely covered with kerosene, the source of which is being developed into a huge commercial enterprise.
